INSERT INTERNAL SERIAL NUMBER (OPTIONAL)

WP6 Deliverable No. 6.2

TA2 1st year report

Project acronym:

AHEAD2020

Project Title:

Integrated Activities for the High Energy Astrophysics Domain

Grant Agreement No: **871158**

**This deliverable is part of a project that has received funding from the European Union's
Horizon 2020 research and innovation programme**

Start date of the project:

2020-03-02

Due date of deliverable: 01/03/2021

Submission date: 26/02/2021

File Name: WP6_D6.2_TA2_first_report_v1.0.pdf

Prepared by: Paul O'Brien

Version	Revision Date	Prepared by	Review and approval

First Year Report of WP6 TA2.....4

First Year Report of WP6 TA2

This document concerns the deliverable of the WP6 TA2 (data analysis) first year report. The first call was delayed due to Covid 19.

Applications were submitted via a dedicated web page hosted at the University of Leicester.

https://www.ledas.ac.uk/ahead/ahead_2020CALL_1.php

The website is compliant with GDPR.

The first call opened on 2021 January 11 and closed on 2021 February 22. The call was advertised via a variety of professional email distribution lists (such as the RAS, the IAU and COSPAR) as well as being on-line at the institutes and on the main AHEAD web site. By the closing date, 3 proposals had been received for TA2. For this call it was noted that prospective visits were likely to be virtual. This restriction resulted in fewer applications than would normally be expected (3 applications). One of the applications was also submitted to the computational astrophysics TNA call as the applicant was unsure which to use.

As the first call has just closed, the review of proposals is still underway and hence results will be reported in the next summary report.
