

## **WP 4 Deliverable No. 4.7**

### **Video game**

Project acronym:  
**AHEAD2020**

Project Title:  
**Integrated Activities for the High Energy Astrophysics Domain**

Grant Agreement No: **871158**

**This deliverable is part of a project that has received funding from the European Union's  
Horizon 2020 research and innovation programme**

Start date of the project:  
**2020-03-02**

**Description**

The Astro Quiz, named "Beyond our sky", is developed by the company "Tuomuseo" in Italy. Its main target are kids in pre teen age, but it is easily played by anyone who has an interest in astronomy or astrophysics, also without a high level education. The player can answer the questions and "travel" in the cosmos understanding new info at each step. At the end of some special questions, the players can find extra contents and links. To play all the game from the beginning to the end, the player needs around 20 minutes, but the game can also be stopped and restarted anytimes thanks to a login procedure which use google and facebook cookies to remember the game progress

The game can be accessed through the AHEAD2020 public outreach web-page
